Agriculture and Agri-Food Canada; Irrigation Crop Diversification Corporation; South East Research Farm; Nutrien; University of Saskatchewan – CDC

SPG Contributions	Project Status	Duration/Timeline of Project (Year to Year)	Total Project Cost
\$105,000.00	Completed	March 2019 – February 2020	\$105,000.00

### Project Description

To evaluate herbicide tolerant and conventional soybean variety suitability for regions in Saskatchewan – yield, maturity, and protein content to be evaluated.

### Outcome

Data is reported annually and incorporated into long-term means, which are published in Seed Guides.

### Research Objective

#### OBJECTIVE 1

To evaluate herbicide tolerant and conventional soybean variety suitability for regions in Saskatchewan – yield, maturity, and protein content to be evaluated.
